**ADVANCE YOUR CARE**

# THE GROUNDBREAKING NEW MONITOR/DEFIBRILLATOR FR

# OM ZOLL

To improve patient outcomes, healthcare providers rely on feedback and data at every step of the rescue. Access to real-time clinical feedback on the scene can take your care to the next level and enable you to manage multiple disease states.

## Real-Time Clinical Feedback—Available Only Through ZOLL

For years, ZOLL® devices have provided real-time clinical feedback on CPR to help rescuers deliver high-quality compressions to patients in cardiac arrest. The X Series® Advanced monitor/defibrillator goes beyond cardiac arrest, providing real-time clinical feedback for patients in respiratory distress and patients with traumatic brain injury:

**Real CPR Help®** – provides real-time clinical feedback on compression depth and rate

**Real BVM Help®** – provides real-time ventilation feedback on volume, breath rate and quality of ventilation of manually delivered breaths

**TBI Dashboard™** – provides the right information at the right time to help rescuers effectively manage traumatic brain injury (TBI) patients

# DISEASE STATE MANAGEMENT AND ACCESS TO KEY DATA

## Manage Multiple Disease States

In the pre-hospital environment, access to data helps you manage trauma, cardiac arrest, chest pain, respiratory distress, pediatric issues, and other conditions. X Series Advanced provides information and feedback on CPR, ventilation, and TBI, increasing the range of treatable patients when compared to other currently available monitor/defibrillators.

Standard Monitor/defibrillator

- Cardiac Arrest
- STEMI
- Other

X Series Advanced

- Cardiac Arrest
- STEMI
- Respiratory
- Trauma
- Other

*Please consult your local protocol for placement order of airway adjuncts.*

### Seamless Device Integration

For cardiac arrest patients, the X Series Advanced monitor/defibrillator features Real CPR Help and Real BVM Help, providing simultaneous real-time feedback on both compression and ventilation quality. When used with the AutoPulse®, ZOLL's automated CPR device, X Series Advanced captures the unique chest compression data and displays it on the screen.

### Easy Access to Data

With RescueNet® CaseReview, clinicians can view data from the X Series Advanced post-case for effective QA/QI—no more chasing crews to get case files. With the push of a button, paramedics can send files directly to your secure system for performance-focused debriefing. Access to data, including ventilation and compression performance, is as fast as opening a web browser.

## The Power of Telehealth

With ZOLL's RescueNet Live telehealth solution, healthcare professionals can view data from the X Series Advanced from a remote location. Remote viewing capability on the X Series Advanced provides effective decision support that enables EMS providers to meet their telehealth needs.

Our commitment to service and support extends well beyond delivery of equipment.

We offer four levels of service protection to best suit your needs and budget. From our entry-level Preventive Maintenance option to our comprehensive Worry-Free coverage with on-site option, we make it easy to find a plan that works for you.
